**Miscellaneous Information:**

**Features:** GLC custom tops are fabricated with heavy gage brushed 304 stainless steel, bonded to 3/4" particle board. Sink bowls, backsplash and seams are welded and polished smooth to a one-piece seamless appearance with superior surface finish. Owning a sanitary surface is one reason to choose a stainless steel top from GLC. Stainless is also available with textured patterns.

**Surface Care:** Use mild detergent or baking soda. Clean then dry with soft cloth. Stainless steel has a grain, and when using any kind of an abrasive always clean in the direction of the grain.

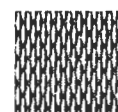

With minimal care your new top will last a lifetime.

**Orders:** GLC requires a signed order, faxed or e-mailed.

**Dimensions:** A tolerance of plus or minus 1/8" is standard.

**Receiving:** Customer or authorized person must be present to accept full responsibility of the condition of products upon delivery.
